

Please do not replace K-LOVE radio (signal) with an LPFM station. My family listens to K-LOVE daily, at home and especially in the car as we go from one activity to the next. The music is positive, uplifting, encouraging, inspirational, and can be listened to without fear of what my children will be exposed to. K-LOVE has been responsible for changing the lives of thousands of people-those who just needed a lift in their day as well as those in desperate situations. If you take away the current FM signal K-LOVE could be replaced by another program. Mine is one family asking you to not let that happen!
